Successful in Tackling the Most Challenging Requirements

Delivering Tech Talent with Integrity

At Elite Technical, we are dedicated to finding the best people to meet the needs of every client we serve. We feel really good about connecting talented people with great jobs, and we work hard to do just that. We make it a point to celebrate those important outcomes. We'll give you a reason to celebrate, too.

Relationships Matter to Us

Placing strong value on our reputation assures our clients of integrity, accountability and success across our service spectrum. Ensuring a trustworthy reputation for Elite Technical has been the rudder for our company since Day One.

Our Mission is to fill the greatest technology jobs with the most talented people.

Since our humble genesis in 1992 as a home-based startup, Elite Technical has grown into a nationally recognized provider of Information Technology and Engineering services in commercial and federal markets. As recruiting and staffing industry experts, we are passionate about our mission. We also are passionate about supporting leading-edge technology that moves our world forward while helping people and companies succeed.
